Trade In Your Old Tools!

When was the last time you reviewed how much you spend to repair outdated and broken tooling? During a recent visit to Houston our National Sales Manager, Jim Bullen, met with a customer who had spent over \$2,500.00 in 2005 to repair a competitor's tool which has a "NEW" sale price of roughly \$3,500.00. Jim asked *"Why pay nearly 75% of a new tool cost to only have a tool that may break again and cost you more ... again?"*.

Instead of continuing to repair a tool purchased in 2001 the customer "TRADED IN" the tool and received credit towards his purchase of a new TorcUP TU-2. With 1/3 fewer moving parts, his new TU-2 will give him less possibilities for mechanical failures as well as a 13 Month TOTAL Tool Warranty!!

Call today with your list of tools ... or even just one tool ... that you would like a quotation for Trade In credit. Turn your broken or outdated tools into "Trade In" Credit (\$\$) towards new and advanced tooling.
